For the Love of Detail

The Fine Art of Hunting Rifle Design

Perfection comes from an unwavering dedication and meticulous attention to detail. To develop and build the finest hunting rifles is our mission; to refine and artistically upgrade them by hand is our passion.

The Blaser Custom Line blends innovative rifle technology, precious stock woods and hand-crafted artwork to form unique firearms for the avid hunter.

A Master's Touch

The Perfect Finish Takes Visual and Manual Skills

The embellishment of rifles and guns has always been a special vocation. The true master has a trained eye for harmonious shapes, precise fitting and the perfect surface finish as well as a sensitive hand for crafting them to perfection.

Those who work in our Custom Shop are the best of the best. No firearm ever leaves our plant until it is completely flawless, a true work of art.

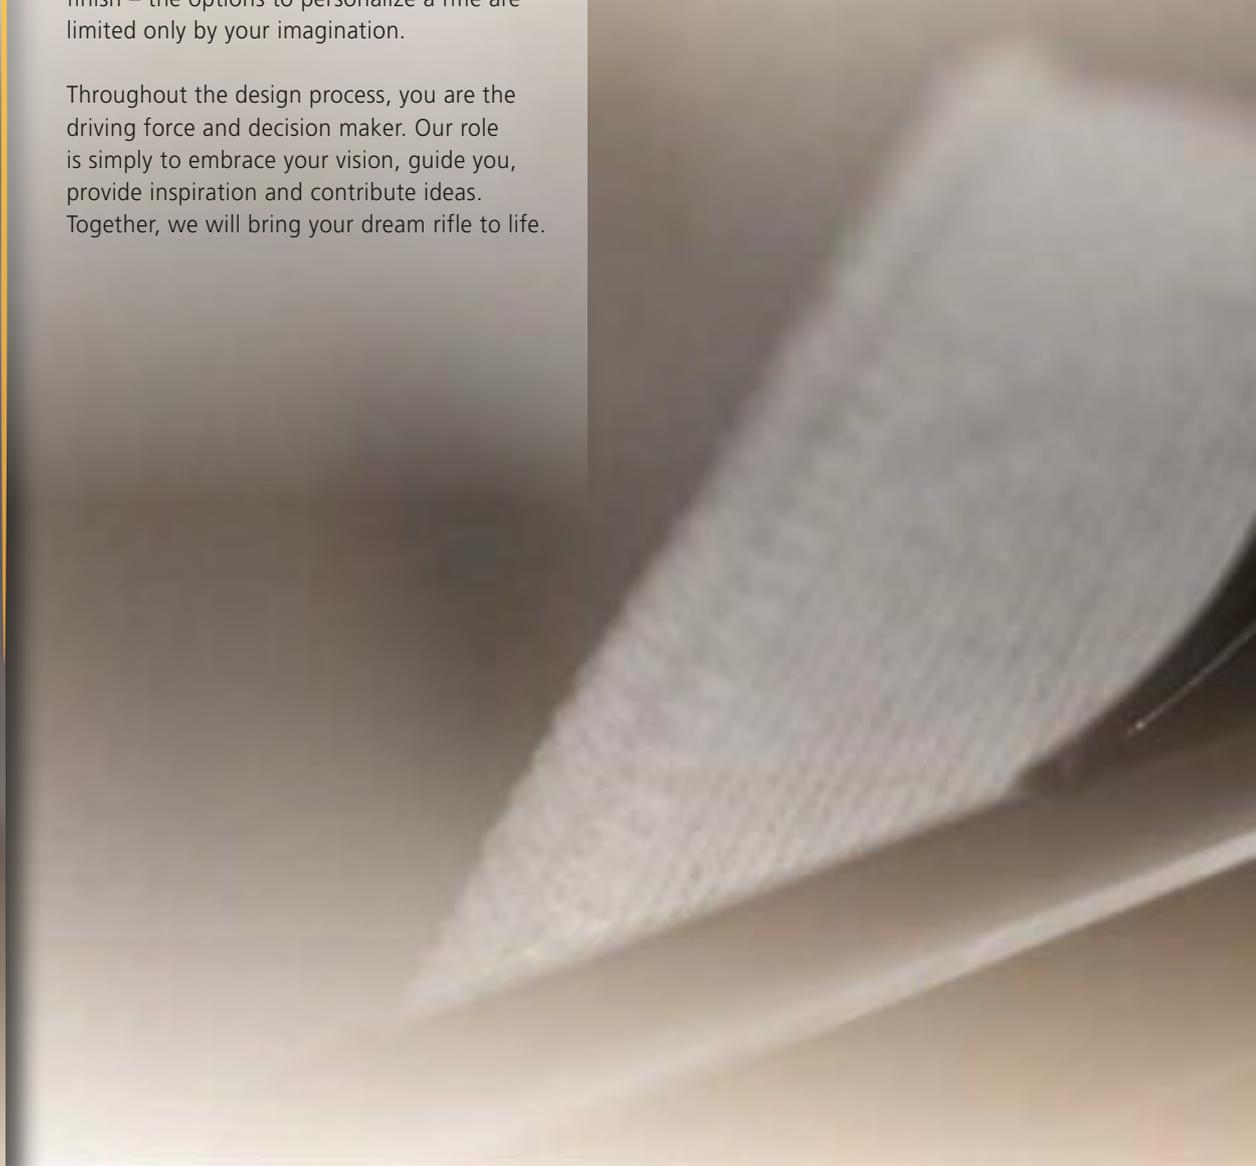

Fulfilling Your Heart's Desire

Customized Refinement for a Unique Expression

Whether it is the fine engraving of rifle details, precious inlays of gold, a noble satin or gloss finish – the options to personalize a rifle are limited only by your imagination.

Throughout the design process, you are the driving force and decision maker. Our role is simply to embrace your vision, guide you, provide inspiration and contribute ideas. Together, we will bring your dream rifle to life.

Growing Value

The Beauty of Nature

Our custom stocks are made from walnut trees that are up to 300 years old. The unique grains are rare creations of nature, telling of the centuries they spent growing in the highlands of the Caucasus Mountains.

The character of the stock wood can be embellished in many artistic ways. The checkerings and ornamentation are crafted by hand to enhance the rifle's overall appearance.

Depict your Experiences

The most meaningful engravings are those that portray a real life experience. Skilled at bringing hunting escapades to life, our master engravers compose scenes that reflect both setting and action, creating a work of art that commemorates your hunting adventure.

Whether engravings are based on actual experiences or aspirations for future hunts, our engravers create wildlife and hunting motifs of entralling authenticity.

Authentic to the Smallest Detail

Complete Perfection

The Dream Becomes Reality

When all the rifle parts are finished, it is time for the grand finale. One of the most fascinating moments in gun making is when a rifle is assembled for the first time and reveals its unique character.

A close-up photograph of an elephant's head and tusk. The tusk is thick and textured, curving upwards and to the left. The elephant's eye is visible on the right side, looking towards the viewer. The background is a soft, out-of-focus sunset or sunrise, with a bright sun or moon low on the horizon. The overall mood is serene and majestic.
