Shop the Best Quality Takedown Rifle Hard Cases for Travel

Ultralight and Ultrastrong

Negrini offers the strongest and lightest takedown rifle hard cases for sale. Using our patented double-wall construction, we make each takedown rifle case strong enough to protect your firearm from crushing weight and collisions or falls. Padded fine fabric upholstery in the interior keeps scratches off with a stylish flair. With proper care, you can enjoy any of our rifle carrying cases for a lifetime, and to make sure that your case arrives in optimal shape, we provide a limited lifetime guarantee.

Safest Rifle Case for Air Travel

Travel with ease knowing that your rifle is protected by the triple-lock system on Negrini's double rifle and takedown rifle cases. Our locking mechanisms are TSA compliant, featuring reliable backups to keep your firearm secure in the event of damage or malfunction. These locks use three-digit combinations which can be changed after purchase. The lock is also set into the form of the breakdown rifle case to make it easier and safer to handle, so you can say goodbye to bulky and awkward padlocks.

Stylish and Portable Takedown Rifle Cases

Protection is important, but appearance is important too. Negrini's luxurious double rifle and takedown rifle hard cases are beautifully designed and crafted in Italy using genuine hard leather and high-quality fabric. Their elegant durability and light weight make them a pleasure to own, whether for home use, local transportation, or international air travel. Most popular takedown guns are compatible with our breakdown rifle cases, including Blaser, Rigby, Sako, Mauser, and Purdey. Whatever the case, you're sure to find the best fit with Negrini. Take a look at our selection online today!
