DANGEROUS GAME

Limcroma safaris is fortunate enough to have the exclusive right to hunt the single best elephant area in Africa today. The area not only provides the biggest tuskeders but also the best hunting experience you can ever go on. This is also by far the best buffalo area in all of Africa. This can be the combination hunt you have always dreamt of when reading about all the big African trophy hunters of yesteryear.

Limcroma takes pride in bringing you the ultimate lion hunting experience in Africa. The semi-desert region of the Kalahari provides the highest quality lion hunting experience and this is where the experienced Limcroma team will provide you with the highest quality lion trophies. Our concession exceeds 40 000 acres in size and is also home to a large abundance of free ranging plains game. Hunts are usually done on foot and tracking them down in the sandy dirt will give you a lion hunting experience and trophy second to none.

In South Africa Limcroma has access to some of the most sought after dangerous game locations in the country. Our Cape Buffalo hunts are conducted in either the Limpopo Valley, in and around our base camp, or on one of our multiple areas located in the Eastern Lowveld bordering Kruger National Park.

The Waterberg mountain range and surrounding area is where we conduct our South African Leopard bait hunts. The Waterberg is known to be one of the most densely populated areas in Southern Africa as far as Leopard is concerned. This area is also the only UNESCO approved savannah biosphere in the whole of Southern Africa which makes it a game rich area with controlled sustainable hunting.

Limcroma Safaris has access to more than 80 000 acres in the biosphere. Please note that these hunts work on a strict permit basis and therefore we have limited availability.

All of our White Rhino hunts are conducted in South Africa on several of our concession areas. South Africa boasts the highest and healthiest sustainable population of White Rhino in Africa. This was brought about by closely managing these animals in a sustainable manner thereby ensuring their survival by using hunting as a conservation tool.

And I was thoroughly surprised at spending time in a blind with my husband. The wildlife was incredible and I actually thrilled in the excitement of his hunt!"

Limeroma Safaris

"They say it takes one to know one and it's clear from the get go that the Limeroma staff are bowhunters first and foremost. Their love of the sport was reflected in every aspect of my safari, from blind placement and shot advice to their assistance and guidance. They operate a true bowhunter's paradise!" - Al Weaver

"As a bowhunting couple, we enjoy hunting together. This wasn't even a question of 'can we' at Limeroma. The staff (all bowhunters themselves) understood our wants...and apparently those before us. Blinds are spacious and comfortable and easily accommodate a couple or small family. Blind placement was another 'Wow!' We saw tons of game and had ample opportunities to bag the highest quality trophies."
- Brian & Alexis Spicer
