MARK V® DANGEROUS GAME RIFLE

NO LONGER IN PRODUCTION ★★★★★

Whoever said that “looks are deceiving” must have been talking about me. With my Kryptek® Altitude™ camo I deceive the eyes of wary big game animals like no other Mark V. *Accubrake varies on caliber.

Description

From Cape Buffalo in Africa to monster Grizzlies in Alaska, the Dangerous Game is the rifle of choice when working in dangerous conditions and harsh environments where you need reliability. The Mark V® Dangerous Game gives you the option to mount your scope or use the open sights to take the shot that make a successful harvest. With the strongest action in the industry, this Mark V® provides the ultimate in confidence in any situation.

Minimum 120 Day Lead Time for build

Barrel / Receiver / Bolt Knob / Safety / Trigger Guard- **Graphite Black Cerakote**

Hand-Laid, raised comb Monte Carlo Fiberglass stock with matte gel coat finish and spiderweb accents

Straight Fluted Bolt Body

NECG Sights (Front & Rear)

+1 Hinged Floor Plate

TRIGGERTECH TRIGGER

TriggerTech’s trigger provides true zero-creep break, extremely short over-travel, and is externally adjustable. Precision cut stainless steel components ensure consistent trigger pulls from shot to shot in a safe, reliable, and corrosion resistant package.

ACCUBRAKE ST

By adding an Accubrake ST you will significantly reduce felt recoil up to 53%. Available in four different barrel diameters, with thread protector, for a perfect brake-to-barrel contour.

54 DEGREE BOLT

The shortest in the industry (as compared to typical 90 bolt throw). Allows for faster chambering on follow-up shots and greater bolt-to-scope clearance.

CERAKOTE®

Cerakote is the industry leading thin-film ceramic coating. The Cerakote unique formula enhances physical properties including wear, corrosion, and chemical resistance while improving impact strengths, and hardness.

1 review for "Mark V® Dangerous Game Rifle"

Dan Harrison

November 2, 2023

★★★★★

Purchased a new DGR in 2019. Much more comfortable to shoot than my mkV delux thanks to the excellent brake. 460 ammo is a bit expensive so my reloading hobby has allowed me to do alot of practice. Very accurate with everything I have fed it from 300gr Barnes tsx to 500 gr tsx. Shot a nice 40” Cape buffalo in Tanzania. Not sure who was more impressed, me or my PH. Dropped dead in his tracks. Three plus one cartridge capacity is comforting when hunting dangerous game. Anyone suggesting a 460 is too much should try one of these. I am 73 and will continue to hunt with and shoot this fine gun for a long time.
