DESCRIPTION

TECHNICAL INFO

TECHNICAL DATA SI

20ct

This .500" diameter 410 grain Safari Raptor™ non-conventional (NonCon) brass solid hunting bullet is designed for Bolt Action rifles, but can be used in double rifles as well. Design incorporates 3 + 1 band configuration for reduced barrel strain. It has the 67% Meplat BBW#13™ which has been proven to provide the deepest penetration of any nose profile to date.

Instead of mushrooming, six petals shear off starting at 3" of penetration and gradually move in a star pattern away from the main wound channel while the base continues on for even deeper penetration.

After killing three old cape buffalo with this bullet I am very impressed. Each buffalo was DRT with one shot in the middle of the shoulder, broadside at 40 yds. Muzzle velocity was a moderate 1940 fps. Tissue damage was outstanding. I and my hunting partners and PH's were very impressed. Brian Gallup, BC, Canada
