

# Game Scout Rifle Stock

Starting at \$578.00

[Build Now](#)

**Description**    Additional information

The Game Scout design is a duplicate of the Remington Classic stock but with the popular A-3 vertical pistol grip. This gives McMillan A-series stock owners a smooth transition from their tactical stock to a compact hunting stock. It is an ambidextrous stock and can be inletted for most right hand and left hand Remington type actions and for barrel contours up to about a #4 Douglas. It can also be ordered with either of the optional integral cheekpieces. Also available for Winchester, Sako and Tikka T3 actions.

- Available in fixed comb or adjustable cheek piece configurations
- Available in right and left hand configurations

Please contact us if you do not see your action listed.
