Extremely well constructed. Snap closure is handy for quick access. Light enough to pack in case with my K80

Great Gun Case

Bought this case after my older case zipper failed. Love the cordura fabric and the side pocket. Seems to be built with a quality in mind and I'm looking forward to years of hard use.

Excellent design, fit to and thought into case, lining, stitching and fasteners. Used this for an SKB RS300 with a 30" barrel. Fit perfectly.

Love the ease of ordering from the website. I also love the option of adding embroidery to certain products! The gunslip is very well made and Wild hare backs their products!

Impressed with the quality of the product. Well made and well sewn. Nice padding to protect my shotgun. Super fast product delivery. When I received my shipping notification I thought they made a mistake and forgot to personalize it. They did not forget, just super efficient.

This is well made product and LONG enough to carry long bbl shotguns with extended chokes. The zippered pocket is large and will hold extended tube containers and extra "possibles".
