Good hiking boots are essential to be able to enjoy hiking and trekking on the trails, in the mountains or in the woods. It is important to have a pair of shoes that fits your feet, gives you space for good socks, that is water repellent, are durable, not too heavy, and that provide good support. In other words, there are many factors that come into play when we produce shoes. We have a good selection of hiking boots that suit your needs, and your feet as we also have wider models. In the summer, most people choose lighter hiking shoes without lining, while in the winter you need more insulation. At the same time, it is important to think about the terrain you are planning to use the boots in. Lundhags hiking boots are made of durable material to fit your needs. Find the one that suits you best!
