## Overview

Hornady Superformance 257 Roberts +P 117gr SST Rifle Ammo - 20 Rounds - Hornady's Superformance uses progressive propellants that take your favorite V-MAX, NTX, SST, GMX, InterLock, and InterBond bullets to levels of performance that are simply unattainable with conventional ammunition. It use the highest quality cases and primers available which equals consistent components that translates to consistent shooting in the field. The Superformance ammunition is 100 to 200 fps faster than conventional ammunition and is safe for use in all firearm types, including semi-autos, lever guns and pump actions. This 257 Roberts +P load features a SST bullet with a 117 grain weight and comes packaged 20 rounds per box.

**Awsome**

Clean firing and accurate. Wouldn't expect anything less from Hornady. Hard round to find and Hornady comes through as usual!

So far they have perform great on paper, average group at 100 yard -5/8" through a 24" 1:10" right hand twist barrel.

Purchased on Dec 12, 2022

Will test it on deer next hunting season

**Love to see this ammo in stock!**

Haven't shot this ammo yet, but have always had a good experience with Hornady Superformance. Shipped quick and was packaged well. Will update if any performance issues. Not to mention this ammo is super hard to find let alone for this price!

**This round went straight through deer**

I shot a doe at 40 yards with this round. She was slightly quartered away from me on her left side. This bullet went straight through her. It went through the liver and lung but didn't 'expand'. I had no blood trail but luckily found her eventually as she didn't go far. Shouldn't the bullet have mushroomed?

**Too hot of a load for my gun**

Not super happy with the accuracy of these. I was shooting hand loads so I was spoiled. I can't get those anymore, and this was the only ammo I could find in this caliber. 2-3" groups at 100 yds out of my Winchester 70 XTR Featherweight.
