Product Description

Instructions

Performance meets price.

Timney has been asked to build a Remington Model 700 replacement trigger at a cost-effective price that does not compromise on quality. You asked. Timney listened.

Introducing the Impact 700 - the newest trigger in Timney's extensive line of Remington 700 triggers that are American-made by the incredible craftsmen and women who build, "The World's Finest Triggers".

Timney's engineers designed this entry-level trigger by machining the parts from billet steel - no skimping with metal injection molding, rolled, or stamped parts - while still hand-assembling, testing, and calibrating each trigger at a price you asked for - \$124.99 MSRP.

This new trigger has a factory set pull weight of 3 - 4 pounds (non-adjustable) that will give you a crisp, clean break and features our Sear Engagement Adjustment Lock design (SEAL'd) which ensures a user-friendly experience.

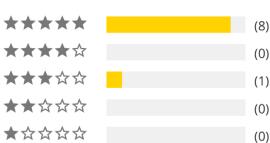

The Impact 700 is the next evolution of accuracy in a drop-in, replacement trigger for the iconic Remington Model 700 rifle. The secret to accuracy? It all starts with an amazing trigger and this trigger is truly amazing. The new Impact 700 trigger is Timney's latest, innovative, overnight success - 77 years in the making.

★★★★★ **Impact Trigger**

Pretty fast shipping. The packaging and install instructions were simple to follow. And the trigger shipped with a pull weight under 4lbs. Couldn't be happier.

★★★★★ **Customer service**

I ordered the wrong trigger, but without hesitation and no delay Timney Trigger upgraded my order and sent me the right trigger. The customer service department was so easy to work with. I could tell immediately they cared about my issue and wanted to quickly help me get the right product for my needs. I appreciated the professional help and would recommend this company to anyone needing a new trigger.

John T. *Verified Buyer* | United States | 09/03/2023

★★★★☆ **Review From John Taylor of the Remington 700 Impact 700 Trigger**

I consider the Timney Remington 700 510-V2 Trigger Excellent , and I will continue to order it for updating my Older Remington 700 rifles . I will not be using Impact 700 trigger any more because the trigger blade does not fit the Remington ADL or BDL Trigger guard. The Trigger blade should be a little shorter to fit.
