NOTICE:
As of January 1, 2023 a charge of 3.99% will be applied when payment is made via Credit/Debit card. Money Order is acceptable for payment.

Our brass cases are turned out **ONE AT A TIME** from a CNC Lathe for a precision product. Each case is measured for an accurate dimension required for all firearm components. We begin with a 12' length rod of solid brass stock conforming to the tightest manufacturing tolerances. **All are precision lathe-turned.**

If your gun has special chambering needs, we need a chamber cast or the dimensions AT THE TIME OF YOUR ORDER. Otherwise we will use the specs from Cartridges of The World or any other material that is available.

FAILURE TO SUPPLY US WITH SPECIFIC DIMENSIONS CANNOT GUARANTEE FIT OF YOUR CASES - Any orders returned for remanufacturing will be recharged. A 15% re-stocking fee applied to orders returned

Use these forms below to record your dimensions & send with your order form.
