DESCRIPTION

Introducing viewing quality never thought attainable before, perfect for wildlife enthusiasts. The **Leica Trinovid 10x32 HD 40317** creates a bright image even in the darkest conditions. This is achieved thanks to the large exit pupil, which allows in lots of light. The combination of extremely sharp images, stray light, suppression, and light transmission, provides an image unlike any other even on cloudy days and in very dim lighting. The lenses have a water-resistant, dirt repellent coating that is extremely effective. The **Leica Trinovid 10x32 HD** is compact and lightweight enough to be the perfect travel companion and fits in any luggage, backpack or purse. The ergonomic body style makes it comfortable and easy to hold.
