MIL SPEC GRIP-N-PULL (CALIBERS 5.56, 7.62, 338 and 50 BMG)

Works for Multiple Calibers. Long gone are the days when you need a new collet for each and every caliber of bullet you want to pull. This **MIL SPEC** GRIP-N-PULL pulls ALL of the following caliber bullets: 5.56, 7.62, 338 and 50 BMG.

Fast, Easy & Clean. GRIP-N-PULL is *by far* the fastest bullet puller on the market. No need to spend 5 minutes changing out collets every time you switch bullet calibers. And there's really no contest between the GRIP-N-PULL and inertia/hammer pullers. GRIP-N-PULL takes 50% the time and eliminates 100% of the mess.

Commercial Grade. The GRIP-N-PULL is constructed of 1/4-inch heavy-duty #304 stainless steel and comes with a **lifetime** warranty.

Zero Intrusion on Bullets. Collet pullers can be really hard on bullets, rendering an unacceptably high percentage of them completely unusable. The GRIP-N-PULL, on the other hand, doesn't do any damage to your bullets. (See the [FAQs page](#) for suggestions on how to properly use GRIP-N-PULL for different types of bullets.)

Quiet & Painless. Tired of banging a hammer puller against the concrete and the accompanying sore shoulder & unhappy wife? You need the GRIP-N-PULL! No banging a hammer. No racket in the garage. Operating the GRIP-N-PULL is completely silent.

Unique Patented Design. The GRIP-N-PULL is patented technology (see [US Patent 9103642 B2](#)). This is a one-of-a-kind reloading tool you can't find anywhere but Grip-N-Pull.com.

Made in the USA. Designed, manufactured, packaged and shipped in Blackfoot, Idaho, GRIP-N-PULL is proud to be a 100% USA-made product.

Lifetime Warranty. GRIP-N-PULL is guaranteed to last a lifetime. You can read about the lifetime warranty [here](#). Bottom line: GRIP-N-PULL is the last bullet puller you will ever need.

100% Satisfaction Guaranteed. We're so confident you'll love the GRIP-N-PULL that we guarantee it 100%. If you're not happy with your purchase, simply return it within 30 days and we'll issue you a full refund.

CUSTOMER REVIEWS
