## CUSTOMER GALLERY

Mossberg International SA-28 Bantam Compact Matte Blued 28 Gauge 2-3/4in Semi Automatic Shotgun - 24in - Whether you're a first-timer or accomplished in the shooting sports, you can't go wrong with Mossberg International sub-gauge autoloaders. Lightweight and quick-swinging, these versatile smaller-gauge shotguns provide maneuverability when hunting nimble upland and woodland targets, or when busting clays. This compact model offers a shorter barrel and more compact length of pull, which provides a well-balanced swing and a comfortable fit.

This is one beautiful little shotgun, wish I bought it years ago! Light for carrying in the field light recoil being a 28 gauge. It operates flawlessly! Recommend to try one you'll love it. Could use a fiber optic bead instead of the old fashioned one

**Awesome 28ga auto**

Awesome little gun. Makes me want one for myself.

I have shot the gun a few times and it functions like it should, but when I purchased the gun it was not labeled a compact gun. I've had to add a slip-on kick pad to lengthen the stock. Is there any factory stock that I can use to add length instead of the using the slip-on pad?

**Good little shotgun**

It is a great little gun. only weighs 80 lbs, and it doesn't want to cycle shells on her shoulder yet, but it works just fine on mine and cycles both high and low brass loads. I am hopeful that as it get more broke in the action spring will allow her to have multiple shots. It fits tiny framed shooters very well.

**Good Starter gun**

Bought this little gun to start shooting shotgun. It has been a hit from the start. It is easy for him to handle, shoot and take care of. We only have about 150 rounds through it thus far. The Bolt release is a little hard for him to operate but not impossible. We have also found that it has some ejection problems when using it heavy or if not held tightly. Neither of this issues are a big deal but something to consider. I will say that I have more people ask about what is shooting since...
