## Cull Hunts

Because of surplus animals that need to be reduced to give species the chance to increase their numbers DE KLERK SAFARIS have decided to introduce the concepts of cull hunts to our clients. Cull Hunts can be for male or female animals and are not for trophy animals. Some animals with inferior or broken horns will be hunted. The Professional Hunter in charge of the hunt will point out which animals are to be shot. The idea behind cull hunts is to harvest a great number of animals in a short period.
