### About Optics & Scopes

#### Expand Your View with Optics

Before your next outdoor hunting pursuit, make sure you have the proper optics you need to spot and track your targets. SCHEELS selection of scopes and optics features top brands like [Vortex](#), Swarovski, [Leupold](#), and more to deliver high-quality hunting optics for enhanced views. Whether you're hunting with a [riflescope](#), spotting game with a [spotting scope](#), or just observing nature with a set of binoculars, you'll find a reliable optic for whatever stage of the hunt you require.

We offer hunting optics for virtually every situation. If you need to measure the distance to your target, check out a laser rangefinder. Take aim with a precision reflex sight for tactical situations and target shooting with our selection of [red dot sights](#). If you want to see a magnified view of the distance, we also offer a variety of binoculars and spotting scopes. Plus, we have scope mounts and accessories to make sure you have the clearest and steadiest view possible. Whether spotting, aiming or calculating range on the hunt, enhance your view with a new optic, scope, or rangefinder from SCHEELS.
