

## 2024 NEW PRODUCTS AND SHOT SHOW

## ALL NEWS

Posted By: Zak Smith on January 15, 2024

Hello and welcome to 2024!

### NEW PRODUCTS FOR 2024

*WE STILL START ACCEPTING ORDERS FOR NEW PRODUCTS ON THE FIRST MORNING OF SHOT, Tuesday January 23rd.*

#### ULTRA50

The ULTRA50 is done and officially released. Our goal was to "make a 50 suppressor that can be shot all day recoil-wise, with crummy earplugs." The result will be shocking to anyone who has shot a lot of 50BMG with a muzzle brake or normal suppressor. The ULTRA50 reduces recoil by 65% compared to a bare muzzle while presenting a peak dBA sound pressure level at the shooter's ear of approximately 136 dB. For comparison's sake, the next most well known "braked 50 suppressor" is 20 dB louder at the shooter's ear. For full details, [see the ULTRA50 PRODUCT PAGE](#)

#### NEW MAGNUS LENGTHS AND "RR" REDUCED RECOIL VERSIONS

The Magnus line has been expanded from its original 9", .30 cal version to add:

**K-length** at approx 5.5"

**S-length** at approx 6.9"

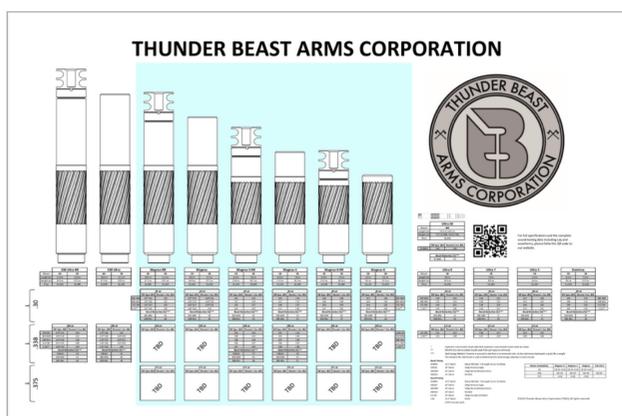

All three lengths are now available for order in **.30 cal, .338 cal, and .375 cal.**

#### RR "REDUCED RECOIL" (or "RACE READY")

All of the above are also now also available **with the same RR "Reduced Recoil" brake we have on the ULTRA50.** The RR brake on the Magnus-RR models reduces the recoil of 300WM by 60-65%, compared to the normal version which has a reduction of 30% or less. **This is the "race" can you've been waiting for!**

[Click link for PDF version of this spec sheet](#)

[FOR FULL DETAILS, SEE MAGNUS PRODUCT PAGE](#)

#### 338 ULTRA RR "REDUCED RECOIL" VERSIONS

Then we went and added the RR brake to the 338 ULTRA series. On 338LM, this will reduce the recoil vs. a bare muzzle by 54% (normal version is 32%).

[FOR FULL DETAILS, SEE 338 ULTRA PRODUCT PAGE](#)

#### SOUND DATA

Following the format of the 2023 SILENCER SUMMIT data, we have full data on almost our entire line of suppressors, [Link to comprehensive metering results \(including waveforms\).](#)

#### SHOT SHOW

Next week (Jan 22-26) most of our office staff is going to be manning our booth at SHOT Show to take orders and answer product questions. Our than normal in Chevy Chase WY will have a skeleton crew. As a result, we are likely not during that week to go to voicemail and it will take longer than normal to get back to you via email. If you need to contact us and are not at SHOT, please either email us or call and leave a voicemail. We will get back to you, but it might take 24-48 hours.

If you are attending SHOT, please come see us at booth **72905**. We are right next to Mile High Shooting in the new CAESAR'S FORUM building, just south of the Venetian.

TBAC and MILE HIGH SHOOTING have a special limited edition SHOT Show T-shirt for those of you who stop by our booths this year! Only available at the show!

#### Note to dealers!

Updated 2024 Price Sheets will be available later this week.

\* ULTRA50 note- please note that existing prize certificates will not be redeemable for the ULTRA50 at face value. The product page for the ULTRA50 has an explanation of how they will apply.
