Product Description

Weather can change in minutes, but the accuracy and performance of this rifle stands for years. Tikka T3x laminated stainless is a weather-resistant, sharp-looking grey stock for the adventurous hunter. T3x Laminated Stainless is designed to withstand demanding weather conditions.

- Special Features:**
- BARREL & STOCK**
This durable rifle has a unique and modern look due to its matte-grey lacquered laminated hardwood stock. The T3 Laminated stainless has a cold-hammer forged, freefloating stainless steel barrel.
 - MODULAR STOCK**
T3x has a new modular synthetic stock that has interchangeable pistol grips, making it possible to modify the angle of the grip. This allows for multiple shooting positions. Additional grips are sold separately. The T3x synthetic stock also has an additional attachment point which allows you to change the width of the stock's fore-end.
 - IMPROVED GRIP**
A grip that never slips. The T3x synthetic stock has a new asymmetrical grip pattern and shape that has been specifically designed to give a solid grip in all conditions.
 - NEW RECOIL PAD**
T3x models come with a new recoil pad technology that reduces the impact of recoil on the shooter. The new robust pad allows you to fully concentrate on the accuracy of your shots.
 - STOCK NOISE REDUCTION**
Be as silent as the forest. T3x synthetic stocks now have a foam insert within the interior of the rear stock – this lowers the stock-generated noise and can help you keep your target in sight. Not available for models with an adjustable cheek piece.
 - REDESIGNED EJECTION PORT**
The new T3x receiver introduces a widened angular ejection port that makes it easier to feed one cartridge at a time.
 - IMPROVED RAIL ATTACHMENT**
Always keep the target in your sight. The T3x models have extra screw placements on top of the receiver so that you can robustly attach a picatinny rail – even when using larger scopes.
 - METALLIC BOLT SHROUD**
Robustness and quality go hand in hand. Metallic bolt shroud covers and shields the rear of the bolt body and the firing pin.
 - STEEL RECOIL LUG**
This extra-strong lug has minimal deformation – even with larger calibers. Compared to aluminium, the steel lug doesn't have strong imprinting qualities that would cause deformation when larger calibers are used.

- PRODUCT CODE: TFFT4022A1600A5
- CALIBER: 9.3X62
- HANDEDNESS: RIGHT
- WEIGHT: 7.2 LBS
- TOTAL LENGTH: 42.8 IN
- BARREL LENGTH: 22.4 IN
- RATE OF TWIST: 1:12"
- MAGAZINE CAPACITY: 3 + 1
