| | <p>The VX®-Freedom® delivers the legendary Leupold® performance and dependability hunters and shooters have demanded for decades. The 1.5-4x20mm model provides a wide field of view, while also allowing for precise, close to mid-range shots.</p> <p>Built around Leupold's Advanced Optical System, the VX-Freedom delivers tried and true light transmission, best in class glare reduction in harsh light, and the resolution and clarity that recreational sportsmen and sportswomen demand.</p> <p>The VX-Freedom is 100% waterproof and fogproof, and guaranteed to get the job done every time. And like all Leupold riflescopes, it's designed, machined, and assembled in the USA and guaranteed for life.</p> | | | | |

DETAILED RETICLE INFO

MOA-RING

DOWNLOAD PDF 📄

- Large outer ring for aiming at fast moving, close targets
- Tick marks below center with 5 MOA spacing for ballistic corrections
- Horizontal line with lead markers for moving targets when at low power. Arrows indicate the direction of movement while the markers represent 10mph and 20mph.
- Open center with bold, tapered pickets for low-light conditions

SUBTENSION AND MAGNIFICATION:

The MOA-Ring Reticle will measure (subtend) correctly when the riflescope is set to the highest available magnification. The reticle's apparent size in the field of view may vary between model's of riflescope.
