

Rifle Scopes > Z6(i) > Z6(i) 1.7-10x42 (BT)

## Z6i 1.7-10x42 BT

The illuminated Z6i 1.7-10x42 BT is ideal for driven hunting and stalking. Its low design makes it the perfect fit for all-round weapons, as well as for light stalking or mountain rifles. The ballistic turret can be separately adjusted to your personal requirements, allowing you to stay on target at different distances.

### MOUNT TYPE

ring-mount

### RETICLE

4A-1

## WHAT TO CONSIDER WHEN CHOOSING YOUR RIFLESCOPE

### MAGNIFICATION

The magnification specifies how much closer an object appears to be. The higher the magnification, the closer the object appears and the smaller the field of view. Rifle scopes usually have variable magnification (zoom), e.g. 2-10x. This means it is possible to zoom continuously from 2x to 10x magnification.

### ADJUSTMENT

To always adjust the point of impact on the target.

## WHEN SECONDS ARE CRUCIAL

## MORE INFO

### Scope of delivery

- Transparent scope covers
- BT tool
- Replacement battery in replacement battery holder
- SWAROVSKI OPTIK rail cover (only for models with SR)
